Delegates will get a taster of Visual Basics
If you require Visual Basic training please contact our Sales team.

Course overview

An action-packed course that will further your knowledge of Access. The skills you will gain will allow you to get much more from your database.

Take your queries to the next level with the query design grid and SQL statements. Also learn how to find duplicate data and data that doesn't match, especially when information comes from different sources.

You will discover more intricate form and report design and how to make them work for YOU!

You will learn how macros can automate your database and simplify processes. You will also be introduced to the Visual Basics environment and will write a little bit of code.

Duration

2 days
9:30 - 16:30

Refreshments are provided on arrival, mid morning and mid afternoon.
A buffet style lunch is also provided.
